Description

Made in the USA - Ramsplitter Brand Wood splitters Inverted 34 Ton 6-Way Skid Steer Splitter - \$2695 with Hardened Steel 6-way wedge. 6-Way Splitting lets you make firewood from the cab of your machine without breaking a sweat. Also great for first pass splitting larger firewood into manageable pieces. Also check out our Inverted 34 Ton Skid Splitter - \$2395 with standard two-way wedge - perfect for breaking even the toughest knotty cross-grained rounds quickly down to size. The perfect thing for splitting those huge logs down to size before you run them through your gas driven wood splitter.

These have 24 stoke and 5 cylinder and with the high pressure of your skid steer they produce over 34 tons of force and are remarkably fast. We sell/rent and also run a large firewood business ourselves and they are remarkable. I have not found a single round it wouldn't split. 50 diameter and knotty? No problem.

Gets the wood down to size so guys can handle it easily.

Also check out our Inverted 25 Ton Skid Splitter for Mini Skid Steers - \$2095 with standard two-way wedge - perfect for breaking those large

pieces too big to manage quickly down to size. The perfect thing for splitting those huge logs down to size before you run them through your gas driven wood splitter. These have 24 stoke and 4 cylinder and with the high pressure of your mini skid steer they produce over 25 tons of force and are remarkably fast. Gets the wood down to size so guys can handle it easily.

We rent the 2-way splitter for \$100 per day or \$60 for half day. We rent the 6-way splitter for \$125 per day or \$75 for half day. Rent ours to make up your mind and then come in and buy one and get your first day's rent back off sales price.
